18th DIRECTING COUNCIL

20th SESSION OF THE REGIONAL COMMITTEE

Washington D.C., 21 – 25 October 1968

RESOLUTION

CD18.R20

BIENNIAL PROGRAM

THE 18th DIRECTING COUNCIL,

Having considered the portion of Document CD18/14 that deals with [biennial programming], including the budgetary cycle of PAHO;

Bearing in mind Resolution WHA21.49 of the Twenty-First World Health Assembly, which recommended that all Regional Committees give particular attention at their 1968 sessions to long-term health planning; and

Recalling that during the discussions at the Forty-Second Session of the WHO Executive Board it was suggested that Regional Committees should consider the desirability of including in future annual program and budget estimates a proposed program for a further year,

RESOLVES

1. To endorse the proposal for inclusion in the annual WHO program and budget estimates of the Director-General of a program projection for a further year.

2. To authorize the Director of the Bureau to include this program projection in the PAHO program and budget, if this system is adopted by WHO.
3. To request the Director, in this event, to use his best efforts to solve the problem of budget compilation and format with a view to including the projection for a further year without eliminating information on the previous and current years now provided in the first two columns of the budget document.
