Provisional Agenda Item 5.1

CD32/9 (Eng.) 21 July 1987 ORIGINAL: ENGLISH

PROPOSED PROGRAM BUDGET OF THE PAN AMERICAN HEALTH ORGANIZATION FOR THE BIENNIUM 1988-1989

This working document explains the revisions made to the Proposed Program Budget for 1988-1989, contained in Official Document 210, as a result of discussions during the 99th Meeting of the Executive Committee in June 1987. The revised pages have been distributed separately.

In order to reduce the amount of the assessments to Member Countries, Director proposed that the Miscellaneous Income of \$3,600,000 estimated in the original Official Document 210 be increased to \$4,800,000, which would be the same level approved for 1986-1987. The Executive Committee accepted this proposal. While the Effective Working Budget would remain at \$121,172,000, the assessments to Member and Participating Countries would decrease by \$1,200,000, to \$116,372,000.

Revised draft appropriation and assessment resolutions, recommended by the Executive Committee for adoption by the Directing Council, are on pages 21-23 of Official Document 210.

The introduction and the program narrative for Organization of Health Services Based on Primary Health Care have been revised to clarify the concept of decentralization of health services.

Resolution V of the 99th Meeting of the Executive Committee is presented below. This resolution recommends approval by the Directing Council of the PAHO 1988-1989 Effective Working Budget of \$121,172,000, which represents an increase over 1986-1987 of 7.7% with no program growth.
