RESOLUTION

CD5.R35

**DEVELOPMENT OF NATIONAL PROGRAMS FOR THE BENEFIT
OF CHILDREN**

THE 5th DIRECTING COUNCIL,

Acting as the Regional Committee of the World Health Organization for the Americas,

Considering that the Director-General of the World Health Organization has brought Resolution WHA4.16 of the Fourth World Health Assembly to the attention of Regional Committees, in which it is stated that the relevant programs of the United Nations, including those of the Department of Social Affairs and UNICEF and of ILO, FAO, UNESCO, and WHO, would, when fully coordinated, constitute a reasonably comprehensive and coherent plan for international assistance to national programs for the benefit of children; and

Considering that the Director-General has been requested to take the necessary measures to strengthen and further develop activities of the World Health Organization for assistance to national programs for the benefit of children, and, to that end, to continue cooperation with the United

Nations, including UNICEF and the other responsible specialized agencies, both directly and through the mechanism established by the Economic and Social Council for that purpose,

RESOLVES

To approve this recommendation as a whole, requesting the Regional Director, for his part, to take measures to bring about a closer cooperation and to facilitate negotiations between technical assistance bodies and technical institutions so that the programs may be developed more effectively.
