4. To request the Director to continue his efforts to make arrangements with countries having quotas in arrears more than two years to adopt a financial plan for the payment of outstanding quotas within a definite period.
5. To request the Director and the respective Ministers of Health to bring to the attention of officials and departments responsible for dealing with economic and fiscal policies (ministries of finance, treasury, etc.) the value of health programs as a part of economic development and the importance of providing adequate financial support for the Pan American Health Organization, in order to prevent the interruption of the program of PAHO.
