

**EIGHTH SESSION OF THE SUBCOMMITTEE  
ON PROGRAM, BUDGET, AND ADMINISTRATION  
OF THE EXECUTIVE COMMITTEE**

Washington, D.C., USA, 19-21 March 2014

Provisional Agenda Item 4.7

SPBA8/11  
4 February 2014  
Original: English

**PASB STAFFING STATISTICS**

**Report by the Bureau**

1. This report provides data on the profile of the Pan American Sanitary Bureau (PASB) human resources as of 31 December 2013, unless otherwise specified. It includes information regarding the number of personnel in the Bureau by type of appointment, type of contract, gender, nationality, grade, location, and years of service. It also contains information regarding the movement of professional staff between duty stations, and regarding retirement trends.

**Fixed-Term Appointments of 1 to 5 Years or Career Service Appointments**

2. As of 31 December 2013, PASB had a total of 833 staff members on either fixed-term appointments of one to five years or career service appointments.<sup>1</sup> Of these 833, 436 (52%) were in the professional category, 74 (9%) were in the national professional officer category, and 323 (39%) were in the general service category (Figure 1 and Table 1).

**Figure 1. Number of Fixed-Term Staff**

<sup>1</sup> The Career Service Appointment was discontinued in 2002. However, staff members holding such appointments on 1 July 2002 and who remain below grade P6/D1 retain such appointments until they separate from the Bureau.

**Table 1. Fixed-Term Staff by Duty Station and Category**

\* Office in Brussels was closed and post moved to Washington, DC.

\*\* Post of limited duration which ended on 31 December 2013.

**Gender Distribution**

3. Overall, PASB has reached gender equity in the professional and higher categories (50%/50%). In Headquarters, the percentage of professional women is at 53%, down from 57% in 2012. In PAHO/WHO Representative (PWR) Offices and Centers, the percentage of women in these categories continues to increase. In 2013, women made up 46% of this group, compared to 45% in 2012 and 42% during the 2011 reporting period (Figure 2).

**Figure 2. Gender Distribution of Fixed-Term Professionals by Organization Location**

4. Women occupy approximately 50% of the 510 professional and national professional officer posts within the Organization. This is slightly down from 51% in 2012 and up from 49% in 2011. Women hold the majority of posts at the P.1/NOA grade level (71% of 21 posts), P.2/NOB level (61% of 69 posts), and P.3/NOC level (59% of 99 posts).<sup>2</sup> Men continue to occupy the majority of posts at the P.4/NOD level (56% of 233 posts), P.5 level (61% of 49 posts), and D.1 level (65% of 20 posts). However, women have now surpassed men at the P.6 level (56% of 16 posts); this is up from 42% in 2012. Two of the three ungraded (UG) posts in PASB are now occupied by men. Of the 21 PAHO/WHO Representatives in the countries, 57% (12) are male and 43% (9) are female (Table 2).

<sup>2</sup> Acronyms used in this document are as follows: P: Professional staff; NO: National Professional Officer; D: Director level (e.g. Director of Administration, Department Director); UG: Director, Deputy Director, and Assistant Director.

PAHO/WHO REPRESENTATIVES (P05-P06/D01)			
Male	%	Female	%
12	57%	9	43%

5. As of 31 December 2013, 42 professionals and national professional officers were appointed to fixed-term positions in PASB: 28 (67%) were men and 14 (33%) were women (Figure 3). This number includes conversions from temporary to fixed-term appointments.

**Figure 3. Gender Distribution of Fixed-Term Professional Staff Appointments**

6. The data in Figure 3 show a decrease in the number of appointments overall and in the percentage of women hired during 2013. This was due mainly to the hiring freeze on many posts during the year. The Organization will continue to ensure that its current policies on gender equity are observed, particularly with regard to the recruitment of staff and the equitable distribution of women at all professional grades.

*Distribution of Professional Staff by Nationality*

7. Table 3 provides consolidated information, as of 31 December 2013, regarding the distribution of professional and national professional officer fixed-term staff in PASB by nationality.

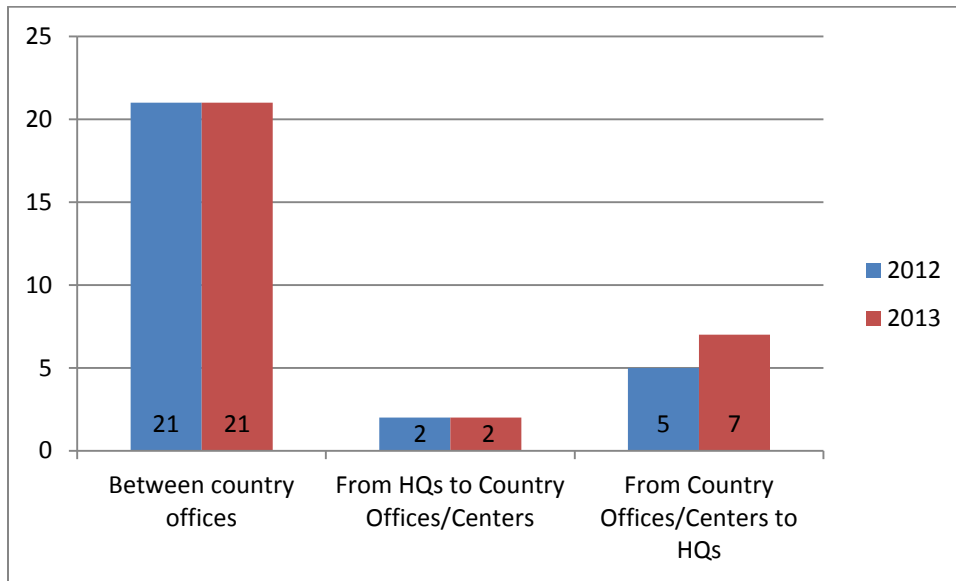

**Table 3. Distribution of Fixed-Term Professional Staff by Nationality**

Nationality	Total	Nationality	Total	Nationality	Total

Ecuador	17	Nicaragua	13	<b>Grand Total</b>	<b>510</b>
Egypt	1	Panama	10		

*Professional Staff Mobility*

8. PASB closely monitors its professional staff, especially in PWR Offices, to ensure rotation after five years at the same duty station. In 2013, 30 professional staff reassignments occurred. Twenty-one (70%) of these reassignments involved the movement of staff between PWR Offices and Centers; two (7%) involved the movement of staff from Headquarters to PWR Offices or Centers, and seven (23%) involved the movement of staff from PWR Offices or Centers to Headquarters (Figure 4).

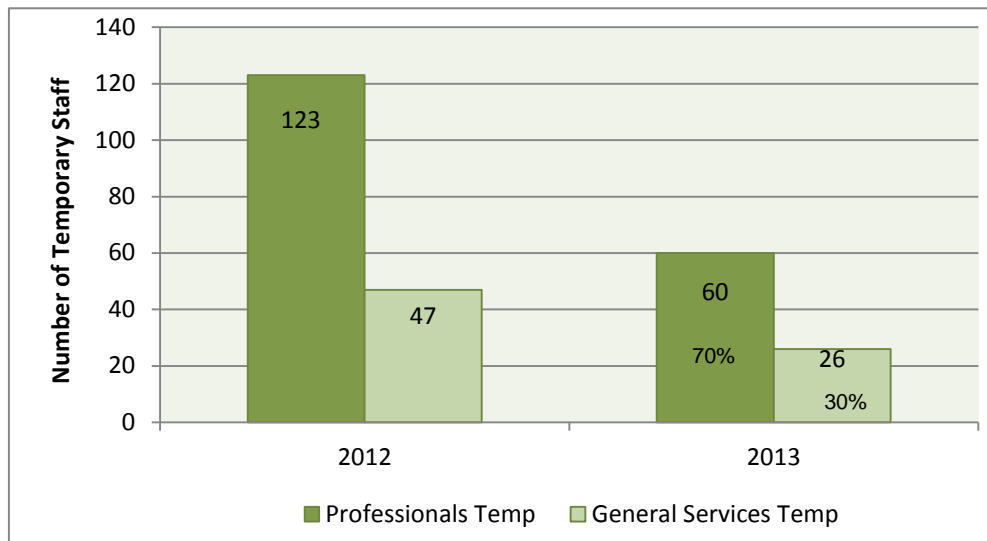

**Figure 4. Professional Staff Reassignments and Transfers, 2012-2013**

**Temporary Staff**

9. As of 31 December 2013, PASB had a total of 86 staff members on temporary appointments. This is down from 170 in 2012, mainly because of financial constraints in the last year of the biennium and because a number of temporary staff reaching their 24-month maximum period of service were on a break in service during December. Of those 86, 60 (70%) were in the professional category and 26 (30%) in the general service category (Figure 5).

**Figure 5. Number of Temporary Staff**

**Gender Distribution**

10. In PASB overall, women represent 58% of professionals in the temporary staff category. They are in the majority at all levels except for the P.4 and P.5 levels (Figure 6 and Table 5).

11. In Headquarters, women hold 68% of temporary appointments, while in PWR Offices and Centers, men hold 59% (Table 5).

**Figure 6. Gender Distribution of Professional Temporary Staff by Organizational Location as of 31 December 2013**

**Table 5. Temporary Staff by Grade, Gender, and Percentage**

**Non-UN Staff Contractual Mechanisms**

14. In 2013, PASB had 1,072 individuals working under a number of non-UN staff contractual mechanisms in PAHO/WHO Representative (PWR) Offices and Centers. The PWR Offices employed 292 agency personnel (AGNF), 262 ministry staff seconded to PAHO (MIN), 104 PASB local employees National Staff/National Staff Non Post (NATP/NATN), 202 national consultants (NPC), 90 international consultants (IPC), and 111 employed by others (EO) (Figure 8 and Table 7). The majority of non-UN staff contracts are used in the countries; however, Headquarters also has individuals in the “employed by others” and “agency” (AGNH) categories.

**Age, Length of Service, and Retirement Trends**

***Fixed-Term Staff by Age***

17. Sixty-one percent of the professional staff, including national officers, and 51% of the general service staff in the Bureau are 50 years of age or older. They represent 57% of all PASB staff and will reach the mandatory retirement age of 62 (or age 60 for staff who were participating in the UN Joint Staff Pension Fund prior to 1 January 1990) within the next 10 to 12 years. This age group has increased slightly from 56% in 2012 (Figure 10).

**Figure 10. Professional and General Service Staff by Age**

18. In order to address the wave of retirements expected in the near future, the Bureau is conducting an organization-wide Learning Development and Needs Assessment to identify current skills and competency gaps between existing staff and the 2014-2019 PAHO Strategic Plan. This is being done to define learning and development interventions and resource needs to close this gap. This study will also be used in developing PAHO’s strategy for human resources which will be coordinated with WHO as much as possible.

***Temporary Staff by Age***

19. Of the 86 staff holding temporary appointments, 60 (70%) were in the professional category and 26 (30%) were in the general services category.

20. The majority of professional temporaries fall in the 30-39 year age range, while the majority of general services temporaries are in the 20-29 year age range (Figure 11).

**Figure 11. Temporary Staff by Age**

***Staff Distribution by Length of Service***

21. The majority of fixed-term staff (38%) in all three categories (professional, national professional officer, and general service) have less than five years of service. Additionally, 2013 was the first time in many years that the number of staff in the general service category with less than five years of service exceeded those with 20 or more years of service (Figure 12).

**Figure 12. Staff Distribution by Length of Service**

***Employment of Retirees***

*Fixed-Term Staff Extended beyond Retirement Age*

22. Eighteen fixed-term staff members were extended beyond the mandatory retirement age in 2013. Nine (50%) were female and nine (50%) male. Fourteen (78%) were in the professional category, and 4 (22%) in the general service category (Figure 13).

**Figure 13. Extensions beyond Retirement Age**

*Retirees Holding Temporary Appointments*

23. During 2013, 33 retirees were hired under temporary appointments or consultant contracts. Sixteen were appointed as temporary staff while 17 were on consultant contracts. Of these retirees, 19 (58%) were male and 14 (42%) were female (Figure 14).

**Figure 14. Number of Retirees Hired in 2013**

**Action by the Subcommittee on Program, Budget, and Administration**

24. The Subcommittee is invited to take note of this report and offer any comments it may have.
