11th DIRECTING COUNCIL

11th SESSION OF THE REGIONAL COMMITTEE

Washington D.C., 21 - 30 September 1959

RESOLUTION

CD11.R32

REGISTER OF AREAS WHERE MALARIA IS ERADICATED

THE 11th DIRECTING COUNCIL,

Bearing in mind that the program of continent-wide malaria eradication is already well advanced, and that various countries report considerable areas already free of the disease; and

Considering the need to employ the most careful epidemiological techniques in order to ensure that malaria has been completely eliminated in a given territory,

RESOLVES

To request that the Director study the possibility of establishing in the Pan American Sanitary Bureau a Register of Areas Where Malaria is Eradicated, as well as the conditions that Member Governments should fulfill to request that a given area be included in the aforesaid Register, and that he report the results of his study to the 40th Meeting of the Executive Committee.
