ORIGINAL: ENGLISHWHO REGULAR BUDGET FOR THE REGION OF THE AMERICAS FOR 1971

The Forty-fifth Session of the Executive Board of the World Health Organization indicated the desirability of specific review by the WHO Regional Committees of changes in projects already proposed for 1971. These projects were originally recommended by the XXI Meeting of the Regional Committee for the Americas and included in the budget approved by the World Health Assembly for 1971.

Following the directives of the Directing Council at its XIX Meeting, all projects in the Americas have been reconsidered with the various Member Governments to assure reflection of their latest desires and requirements. The results of these consultations are now shown in PAHO Official Document No. 98, Proposed Program and Budget Estimates.

In summary, of WHO Regular projects for 1971:

- 57 projects have no changes;
- 137 projects have costing changes or minor revisions in elements;
- 9 projects planned for 1971 were completed in 1970;
- 5 projects were cancelled or postponed;
- 4 projects, net, were transferred from other funds to WHO Regular;
- 13 projects were advanced from the list of those proposed last year to be implemented if funds became available; and
- 20 projects are new or reactivated.

No significant changes are proposed for the Regional Office or Regional Advisers.

The Conference may wish to consider the following resolution:
