

158th SESSION OF THE EXECUTIVE COMMITTEE

Washington, D.C., USA, 20-24 June 2016

Provisional Agenda Item 7.14

CE158/INF/14

9 June 2016

Original: Spanish

A. 69th WORLD HEALTH ASSEMBLY

1. The Sixty-ninth World Health Assembly of the World Health Organization (WHO) was held 23-28 May 2016 in Geneva (Switzerland) and attended by representatives and delegates of 186 Member States. The Presidency of the Assembly rested with Oman, represented by Dr. Ahmed Mohammed Al-Saidi. Five countries served as vice-presidents: Armenia, Chad, Malaysia, Panama, and Timor-Leste, in representation of their respective regions.

2. Dr. Francisco Javier Terrientes, Minister of Health of Panama, served as Vice President of the Assembly representing the Region of the Americas, and in that capacity had the opportunity to lead the plenary session of the Assembly on at least one occasion. Mr. Nicholas Steele, Minister of Health and Social Security of Grenada, was elected Vice President of Commission A and had the opportunity to lead the commission's work on several occasions.

3. This year, the Assembly's guest of honor was Christiana Figueres, Executive Secretary of the United Nations Framework Convention on Climate Change. In her address, Ms. Figueres thanked the millions of health professionals who showed their support for the Paris Agreement, thereby contributing to its approval.

4. The Executive Secretary pointed out the historic achievement of bringing together 155 Heads of State under one roof on one day on one topic, as well as having 195 governments reach a unanimous agreement. She said that at the rate the Agreement is being signed, it is likely to enter into force in 2018 instead of 2020, the date originally set—in other words, two years early.

5. Mrs. Figueres urged the participants to focus their attention on the two links between health and climate change. The first is that combating climate change by reducing emissions will prevent a worsening of health conditions. Regarding this, she said: "You know that one sixth of all illnesses and disabilities are currently due to vector-borne diseases and that the number will rise astronomically with climate change if it is not checked. You know, better than anyone else, that the burden is highest in developing countries where the mortality rate for these vector-borne diseases is 300 times that in developed countries." The second link she pointed out was that combating climate change improves health conditions: "Having cleaner air through the reduction of local

pollution is very well known to you. Improving and restoring degraded lands for better food security and for water safety is also well known to you, and certainly improves health conditions.”

6. She highlighted three areas of work in which the WHO Secretariat and the United Nations Framework Convention on Climate Change have been collaborating very closely to: *a)* explain the specific need to work on climate change because of its impact on health; *b)* strengthen the evidence base in country profiles; and *c)* monitor the progress of the Framework Convention on Climate Change.

7. Mrs. Figueres concluded her address by emphasizing that “if over the next five years we do not fundamentally change what we are doing in the energy sector, in the transportation sector, in the building sector and in all of those sectors that are emitting greenhouse gasses, we are in danger of reaching the tipping point in the atmosphere that will have a direct negative and profound impact on health around the planet for many, many decades – an impact from which many scientists believe we would not be able to recover.”

8. For her part, Dr. Margaret Chan, Director-General of WHO, touched on various issues in her address to the Assembly. She emphasized the achievements in the Millennium Development Goals, the danger of transboundary diseases, assessments of the response to the Ebola epidemic, establishment of the new health emergencies program, climate change, drugs, and antimicrobial resistance, among others.

9. Regarding the Millennium Development Goals, she said that we can celebrate the 19,000 fewer children dying every day, the 44% drop in maternal mortality, the 85% of tuberculosis cases that are successfully cured, the 60% decline in malaria mortality, and the rapid scale-up of antiretroviral therapy for people living with HIV (15 million now, up from just 690,000 in 2000).

10. The Director-General emphasized that in the world today, “an interconnected world characterized by extensive mobility of people and goods, few threats to health are local anymore. Air pollution is a transboundary hazard that affects the global atmosphere and contributes to climate change. Drug-resistant pathogens, including the growing number of “superbugs,” travel well internationally in people, animals and food. She emphasized that the outbreak of Zika virus disease took us by surprise, with no vaccines and no reliable or widely available diagnostic tests, and that to protect women of childbearing age, all that could be offered was advice, such as avoiding mosquito bites, delaying pregnancy, and not traveling to areas with ongoing transmission of the disease. She also mentioned the possible risk of explosive outbreaks of urban yellow fever, especially in Africa, but recalled that the world has had a safe, low-cost and effective vaccine that confers lifelong protection against this disease and that these vaccines should be used more widely to protect people living in endemic countries.

11. Touching on the subject of assessments of the response to the Ebola epidemic, Dr. Chan said she welcomed the current joint external evaluations that are looking at

preparedness and response capacities in several countries, and that the evaluations need to continue with the utmost urgency, as a tool under WHO authority and coordination. She also referred to the reform of WHO's work in health emergency management. The Secretariat's report in Document A69/30 gives an overview of the design, oversight, implementation plan, and financing requirements of the new health emergencies program. The establishment of this program marks a fundamental change for WHO, in which the traditional technical and normative functions are augmented by the operational capacities needed to respond to outbreaks and humanitarian emergencies. The program's design is aligned with the principles of a single program, with one clear line of authority, one workforce, one budget, one set of rules and processes, and one set of standard performance metrics.

12. On a more general note, Dr. Chan said: "As the international community enters the era of sustainable development, the global health landscape is being shaped by three slow-motion disasters: a changing climate, the failure of more and more mainstay antimicrobials, and the rise of chronic noncommunicable diseases as the leading killers worldwide. These are not natural disasters. They are man-made disasters created by policies that place economic interests above concerns about human lives and the planet that sustains them." She mentioned that all these aspects were included in the 2030 Agenda for Sustainable Development, whose purpose is to comprehensively and interactively tackle the root causes of the world's many woes, from the degrading misery of poverty to the consequences of terrorism and violence. The Agenda puts the people left behind first.

13. The Director-General ended her intervention by thanking the Member States for recognizing the critical importance of strengthening health systems and embracing the vision of universal health coverage.

14. The agenda of the Assembly included 54 general items, 30 of them related to technical and health issues (one included 10 progress reports on technical subjects); and 24 administrative, budgetary, and institutional items. As on previous occasions, these matters were dealt with in committees A and B, and in the plenary sessions.

15. The documents related to this report can be consulted at the WHO website: http://apps.who.int/gb/e/e_wha69.html.

16. Table 1 below contains a list of the resolutions adopted by the World Health Assembly that are of interest to the Region, the related PAHO resolutions, some of the implications that the WHA resolutions have for the Region, and the progress that has been made on these subjects.¹

¹ A more exhaustive analysis of the implications of the WHO Resolutions for the Region will be presented during the 55th Directing Council of PAHO to be held 26-30 September 2016.

Other Matters: Executive Board

17. The 138th Session of the Executive Board was held on 30-31 May. The Presidency of the Executive Board rested with Dr. Ray Busuttil, delegate of Malta. Bahrain, China, Nepal, and the United States of America were elected for the vice-presidencies. Colombia, Jamaica, and Mexico were selected for the Executive Board, complementing Canada, the Dominican Republic, and the United States of America, as the six members representing the Region.

18. The agenda of the 138th Session of the Executive Board included 17 items, among them six technical items (dementia, improving access to assistive technology, preventing deafness and hearing loss, health and climate change, *mHealth*, and an update on the eleventh revision of the International Statistical Classification of Diseases and Related Health Problems); three administrative and financial items (evaluation, committees of the Executive Board, and the process for the election of the Director-General of WHO); seven constitutional and protocol-related items; and the statement by the representative of the WHO staff associations.

19. Finally, the Board took note of the reports submitted and approved the date and location of the Seventieth World Health Assembly, among other matters. It was agreed that the Seventieth World Health Assembly will be held at the Palais des Nations, in Geneva, starting on 22 May 2017 and ending no later than 31 May 2017. The Board also decided that its 140th Session will begin on Monday 23 January 2017, at WHO headquarters in Geneva, ending no later than 1 February; that the Programme, Budget, and Administration Committee of the Executive Board will hold its 25th meeting on 18-20 January 2017, at WHO headquarters; and that its 26th meeting will be held 18-19 May 2017, at WHO headquarters in Geneva.

20. The full versions of these reports, as well as other related documents, can be consulted at the WHO website: http://apps.who.int/gb/e/e_eb139.html.

Action by the Executive Committee

21. The Executive Committee is invited to take note of these resolutions, consider their implications for the Region of the Americas, and offer the recommendations it deems relevant.

Table 1. Resolutions Adopted by the 69th World Health Assembly, Documents of Reference, and Implications for the Region of the Americas

Resolution	Items and Reference Documents	PAHO Resolutions and Documents	Implications for the Region ² Progress in the Region
<p>WHA69.1 Strengthening essential public health functions in support of the achievement of universal health coverage</p>	<p>A69/15 Health in the 2030 Agenda for Sustainable Development</p>	<p>CD53/5, Rev. 2 and CD53.R14 (2014) Strategy for Universal Access to Health and Universal Health Coverage</p>	<p>During the 158th Session of the Executive Committee, the Pan American Sanitary Bureau (the Bureau) will present an information document on the implementation of measures to achieve the Sustainable Development Goals in the Region of the Americas in the Governing Bodies meetings in 2016. It will also study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.</p>
<p>WHA69.2 Committing to implementation of the Global Strategy for Women's, Children's and Adolescents' Health</p>	<p>A69/16 Operational plan to take forward the Global Strategy for Women's, Children's and Adolescents' Health</p>	<p>CD49/12 and CD49.R14(2009) Plan of Action on Adolescent and Youth Health</p> <p>CD49/13 and CD49.R12(2009) Plan of Action for Implementing the Gender Equality Policy</p> <p>CD48/8 and CD48.R5 (2008) Regional Strategy for Improving Adolescent and Youth Health</p> <p>CD46/12 (2005) Proposed PAHO Gender Policy</p> <p>CD46.R16 (2005) Proposed PAHO Gender Equality Policy</p> <p>CSP26/16 and CSP26.R21 (2002) Women, Health, and Development</p>	<p>The Bureau is now carrying out a midterm review of the Plan of Action on Adolescent and Youth Health (Document CD49/12) for 2010-2018 and a progress report will be submitted to the Member States in the Governing Bodies meetings in 2016. This progress report will address the goals and indicators in accordance with the global strategy (and the SDGs).</p> <p>PAHO has participated intensely as a member of the regional inter-institutional group for the reduction of maternal mortality and as a member of the Latin American and Caribbean Newborn Health Alliance in the consultation process initiated in the WHO regions by the Partnership for Maternal, Newborn, and Child Health. PAHO has participated in and facilitated technical consultation on the global strategy in this Region.</p> <p>The global strategy is perfectly aligned with the PAHO Strategic Plan 2014-2019 and with the Regional Strategy and Plan of Action for Neonatal Health Within the Continuum of Maternal, Newborn, and Child Care, and the Plan of Action to Accelerate the Reduction of Maternal Mortality and Severe Maternal Morbidity.</p> <p>The Bureau will also study the mandates</p>

² A more exhaustive analysis of the implications of the WHO Resolutions for the Region will be presented during the 55th Directing Council.

Resolution	Items and Reference Documents	PAHO Resolutions and Documents	Implications for the Region Progress in the Region
			of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.
<p>WHA69.3 The global strategy and action plan on ageing and health 2016–2020: towards a world in which everyone can live a long and healthy life</p>	<p>A69/17 Multisectoral action for a life course approach to healthy ageing: draft global strategy and plan of action on ageing and health</p>	<p>CD54.R11 (2015) Strategy and Plan of Action on Dementias in Older Persons</p> <p>CD49.R15 (2009) Plan of Action on the Health of Older Persons, Including Active and Healthy Aging</p>	<p>Latin America and the Caribbean have undergone a rapid population aging process. In the 1950s there were 5.5 million older people, but by 2000 there were some 50 million. From 2000 on, this number will double every 25 years; 81% of people born in the Region will live beyond 80 years of age.</p> <p>Despite the tangible implications of this phenomenon for social protection and, in particular, for health systems in the Region of the Americas, and considering that interest in population aging has increased to some degree in the Region, there is still no comprehensive regional vision for the health of older people.</p> <p>The Bureau will study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.</p>
<p>WHA69.4 The role of the health sector in the Strategic Approach to International Chemicals Management towards the 2020 goal and beyond</p>	<p>A69/19 Role of the health sector in the sound management of chemicals</p>	<p>CE158/INF/7 Implementation of the Sustainable Development Goals in the Region of the Americas</p>	<p>The Bureau, together with WHO, will organize mechanisms for consultation on the priorities identified in the resolution by the Member States, including the implementation of measures to strengthen services and train health workers on the safe management various chemical substances.</p> <p>The Bureau will also study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.</p>
<p>WHA69.5 WHO global plan of action to strengthen the role of the health system within a national</p>	<p>A69/9 Draft global plan of action on violence</p>	<p>CD54.R12 and CD54/9, Rev. 2 (2015) Strategy and Plan of Action on Strengthening the Health System to Address Violence against Women</p>	<p>The issue of preventing violence, in particular against women, is high on the political agenda of the PAHO Member States, as the documents and resolutions adopted by the PAHO Governing Bodies demonstrate.</p>

Resolution	Items and Reference Documents	PAHO Resolutions and Documents	Implications for the Region Progress in the Region
<p>multisectoral response to address interpersonal violence, in particular against women and girls, and against children</p>		<p>CD50.R16 (2010) Health, Human Security and Well-being</p> <p>CD48/20 (2008) Preventing Violence and Injuries and Promoting Safety: A Call for Action in the Region</p> <p>CD48.R11 (2008) Preventing Violence and Injuries and Promoting Safety: a Call for Action in the Region</p> <p>CD44.R13 (2003) Impact of Violence on the Health of the Populations in the Americas</p>	<p>Given the progressive and uniform position of the Region of the Americas, the proposals stated in PAHO's Strategy and Plan of Action on Strengthening the Health System to Address Violence against Women have influenced the contents of the global plan of action.</p> <p>The global plan of action also strengthens PAHO's position to cooperate in the prevention of interpersonal violence, with an emphasis on equity by promoting the incorporation of the human security approach into country health programs, in accordance with PAHO Resolution CD50.R16 on Health, Human Security, and Well-being.</p> <p>The Bureau will study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.</p>
<p>WHA69.6 Prevention and control of noncommunicable diseases: responses to specific assignments in preparation for the third High-level Meeting of the United Nations General Assembly on the Prevention and Control of Non-communicable diseases in 2018</p>	<p>A69/10 Prevention and control of noncommunicable diseases: responses to specific assignments in preparation for the third High-level Meeting of the United Nations General Assembly on the Prevention and Control of Non-communicable diseases in 2018</p>	<p>CD53/INF/4, Rev. 1 (2014) Report on the United Nations General Assembly High-level Meeting on the Progress Achieved in the Prevention and Control of Noncommunicable Diseases</p> <p>CD52.R9 (2013) Plan of Action for the Prevention and Control of Noncommunicable Diseases</p> <p>CSP28.R13 (2012) Strategy for the Prevention and Control of Noncommunicable Diseases</p> <p>CD51.R4 (2011) Strategy and Plan of Action on Urban Health</p> <p>CD51.R7 (2011) Plan of Action on Psychoactive Substance Use and Public Health</p>	<p>PAHO is collaborating closely with the Member States to establish multisectoral plans on NCDs, strengthen services to treat NCDs and policies to reduce risk factors, and build surveillance capacity in order to be able to report on progress toward the global and regional targets and indicators for NCDs, in preparation for the third High-level Meeting of the United Nations General Assembly on NCDs in 2018. In 2016, PAHO will submit to the Directing Council a mid-term progress report on the regional plan of action on NCDs.</p> <p>The Bureau will study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.</p>

Resolution	Items and Reference Documents	PAHO Resolutions and Documents	Implications for the Region Progress in the Region
		<p>CD51.R8 (2011) Strategy and Plan of Action on Epilepsy</p> <p>CD51.R14 (2011) Plan of Action to Reduce the Harmful Use of Alcohol</p> <p>CD50.R2 (2010) Strategy on Substance Use and Public Health</p> <p>CD50.R6 (2010) Strengthening the Capacity of Member States to Implement the Provisions and Guidelines of the WHO Framework Convention on Tobacco Control</p>	
<p>WHA69.7 Addressing the challenges of the United Nations Decade of Action for Road Safety (2011–2020): outcome of the second Global High-level Conference on Road Safety – Time for Results</p>	<p>A69/13 Addressing the challenges of the United Nations Decade of Action for Road Safety (2011–2020): outcome of the second Global High-level Conference on Road Safety – Time for Results</p>	<p>CD54/INF/5-C (2015) Plan of Action on Road Safety</p> <p>CD51/7, Rev. 1 Plan of Action on Road Safety</p> <p>CD51.R6 Plan of Action on Road Safety</p>	<p>The Bureau will study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.</p>
<p>WHA69.8 Decade of Action on Nutrition</p>	<p>A69/7 A69/7 Add.1 A69/7 Add.2 Maternal, infant and young child nutrition</p>	<p>CD47.R8 (2006) Regional Strategy and Plan of Action on Nutrition in Health and Development, 2006-2015</p>	<p>In 2015 PAHO began to implement the strategic areas in the Every Newborn action plan linked with those included in the Regional Strategy and Plan of Action. PAHO will submit the report on the final evaluation of the Regional Strategy and Plan of Action for Neonatal Health Within the Continuum of Maternal, Newborn, and Child Care in the meetings of the Governing Bodies in 2016. The final report will include a recommendation to make national action plans converge and to update the post-2015 targets in accordance with the Every Newborn action plan.</p> <p>With regard to maternal anemia, several countries have registered reductions in</p>

Resolution	Items and Reference Documents	PAHO Resolutions and Documents	Implications for the Region Progress in the Region
			<p>anemia during pregnancy, but progress is not uniform. Data are limited on the incidence of low weight in newborns; however, the Region has lower rates than the other WHO regions, except Europe. Practically all countries in the Region have shown a reduction in the prevalence of stunting, with the exception of Guatemala, where nearly half of all the children suffer from stunting.</p> <p>The Bureau will study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.</p>
<p>WHA69.9 Ending inappropriate promotion of foods for infants and young children</p>	<p>A69/7 A69/7 Add.1 A69/7 Add.2 Maternal, infant and young child nutrition</p>	<p>CD53.R13 (2014) Plan of Action for the Prevention of Obesity in Children and Adolescents</p> <p>CSP28.R20 (2012) Strategy and Plan of Action for Integrated Child Health</p> <p>CD51/12 and CD51.R12 (2011) Plan of Action to Accelerate the Reduction in Maternal Mortality and Severe Maternal Morbidity</p> <p>CD50.R11 (2010) Strategy and Plan of Action for the Reduction of Chronic Malnutrition</p> <p>CD48.R4, Rev. 1 (2008) Regional Strategy and Plan of Action for Neonatal Health within the Continuum of Maternal, Newborn, and Child Care</p> <p>CD47.R8 (2006) Regional Strategy and Plan of Action on</p>	<p>Childhood obesity is a serious problem that continues to increase and, in 2014, the Member States of PAHO approved a Plan of Action for the Prevention of Obesity in Children and Adolescents. Of all the regions of the world, the Region of the Americas is the one that has implemented the most innovative legislation and policies for the prevention of childhood obesity. Advances have been made in some countries in increasing the prevalence of exclusive breastfeeding and support measures (Brazil, the United States, and Uruguay). However, other countries, particularly in the Caribbean, are lagging.</p> <p>The Bureau will study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.</p>

Resolution	Items and Reference Documents	PAHO Resolutions and Documents	Implications for the Region Progress in the Region

WHA69.10 Framework of engagement with non-State actors	A69/6 Framework of engagement with non-State actors A69/60 Framework of engagement with non-State actors	CE158/INF/3 Update on WHO Reform CD54/6 (2015) WHO Reform CD53/15 (2014) WHO's Engagement with Non-state Actors (Regional Consultation) CD52.R15 (2013) Cooperation for Health Development in the Americas	The Framework on Engagement with Non-State Actors was adopted by the 69th World Health Assembly. FENSA consists of overarching principles and four specific policies on engagement with nongovernmental organizations, private sector entities, philanthropic foundations and academic institutions. Member States of the Region of the Americas pledged their commitment to implement FENSA after its approval by PAHO Governing Bodies. Consequently, pursuant Article 14 of PAHO's Constitution and Rule 7 of the Rules of Procedure of the Directing Council, the Director of PAHO has included FENSA as an item in the provisional agenda of the 55th Directing Council to be held on 26-30 September 2016.
WHA69.11 Health in the 2030 Agenda for Sustainable Development	A69/15 Health in the 2030 Agenda for Sustainable Development	CE158/INF/7 Implementation of the Sustainable Development Goals in the Region of the Americas	During the 158th Session of the Executive Committee, the Bureau will present an information document on the implementation of measures to achieve the Sustainable Development Goals in the Region of the Americas in the meetings of the Governing Bodies of 2016. The Bureau will also study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.

WHA69.19 Global strategy on human resources for health: workforce 2030	A69/38 Health workforce and services Draft global strategy on human resources for health: workforce 2030	CD54/INF/1 (2015) Regional Goals for Human Resources for Health 2007-2015: Final Report CD54/INF/1, Add. I (2015) Report on the Development of the Global Strategy on Human Resources for Health: Workforce 2030 CD52/6 (2013) Human Resources for Health CD52.R13 (2013) Human Resources for Health: Increasing Access to Qualified Health Workers in Primary Health Care-based Health Systems CSP27/10 and CSP27.R7 (2007) Regional Goals for Human Resources for Health 2007-2015	The Region of the Americas is in the process of preparing the post-2015 regional agenda on human resources for health. The main strategic lines of this agenda were ratified at the Regional Meeting on Human Resources for Health held in Buenos Aires in September 2015. The new agenda on human resources for health in the Region of the Americas is being developed as the regional expression of the global strategy promoted by WHO, considering the characteristics, identity, and work carried out in the Region. The three strategic lines of the regional agenda on human resources for health are: strengthening the governance and stewardship capacity of the national authorities responsible for human resources for health; improving the availability and distribution of skilled and relevant personnel; and refocusing the training of health professionals on primary health care, with an emphasis on developing the social mission of medical schools. The Bureau will also study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.

Resolution	Items and Reference Documents	PAHO Resolutions and Documents	Implications for the Region Progress in the Region
<p>WHA69.20 Promoting innovation and access to quality, safe, efficacious and affordable medicines for children</p>	<p>A69/42 Addressing the global shortages of medicines, and the safety and accessibility of children's medication</p>	<p>CE158/15 Access and Rational Use of Strategic and High-Cost Medicines and Other Health Technologies</p>	<p>PAHO will present a policy paper on this issue at the meetings of the Governing Bodies of 2016: Access and Rational Use of Strategic and High-Cost Medicines and Other Health Technologies.</p> <p>In the Region, both large and small countries have been suffering from a drug shortage, mainly involving older, generic, and relatively attainable products. There is special concern with respect to pediatric medicines and certain drugs that are classified as essential, such as penicillin. The Region has successfully addressed some of these problems of scarcity through a comprehensive strategy. For example, joint drug purchases, such as the Strategic Fund, can play a key role by guaranteeing a continuous supply at the country level while offering manufacturers a centralized point for predicting demand and greater commercial interest in certain products. The Bureau will study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.</p>
<p>WHA69.21 Addressing the burden of mycetoma</p>	<p>A69/35 Mycetoma</p>		<p>Mycetoma has occasionally been reported in the biomedical literature in Argentina, Brazil, Chile, Colombia, Honduras, Jamaica, Mexico, and Venezuela. Mexico is the country with the highest number of reported cases. However, mycetoma (together with podocniosis, a disease that presents a similar pathogenesis) has not been reported to PAHO as a public health problem by any ministry of health in the Region in any recent decade and, consequently, has not been prioritized for technical cooperation. However, the Bureau will study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.</p>

<p>WHA69.22 Global health sector strategies on HIV, viral hepatitis and sexually transmitted infections, for the period 2016-2021</p>	<p>A69/31 Draft global health sector strategies HIV, 2016–2021</p> <p>A69/32 Draft global health sector strategies Viral hepatitis, 2016–2021</p> <p>A69/33 Draft global health sector strategies Sexually transmitted infections, 2016-2021</p>	<p>CD54/13, Rev. 1 and CD54.R7 (2015) Plan of Action for the Prevention and Control of Viral Hepatitis</p> <p>CD50/15 Strategy and Plan of Action for the Elimination of Mother-to-child Transmission of HIV and Congenital Syphilis</p> <p>CD46/20 and CD46/20, Add. I (2005) Access to Care for People Living with HIV/AIDS</p>	<p>PAHO will present a new plan of action on HIV infection and sexually transmitted infections (STI) for the period 2016-2021 at the meetings of the Governing Bodies in 2016. This consolidated document will include:</p> <ul style="list-style-type: none"> ➤ the Plan of Action for the Control of HIV and STIs 2016-2021 (with the elimination of mother-to-child transmission); ➤ the final report on the Regional Strategic Plan for HIV/AIDS/STI (2006-2015); and ➤ the final report on the Strategy and Plan of Action for the Elimination of Mother-to-child Transmission of HIV and Congenital Syphilis. <p>The Bureau will study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.</p>
<p>WHA69.23 Follow-up of the report of the Consultative Expert Working Group on Research and Development: Financing and Coordination</p>	<p>A69/40 Follow-up to the report of the Consultative Expert Working Group on Research and Development: Financing and Coordination – Report of the open-ended meeting of Member States</p>		<p>WHO reported on the beginning of the first phase of the Global Observatory on Health Research and Development. This phase includes compiling and comparing available data on funding for health research and development, health products in the preparatory phase, clinical trials, and research publications. The model is based to a great extent on PAHO's Regional Platform on Access and Innovation for Health Technologies (PRAIS). In the Region, PAHO administers PRAIS, which includes publications and opportunities for interaction on related subjects.</p> <p>The Bureau will study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.</p>
<p>WHA69.24 Strengthening integrated, people-centred health services</p>	<p>A69/39 Framework on integrated, people-centred health services</p>	<p>CD54/INF/1 (2015) Regional Goals for Human Resources for Health 2007-2015: Final Report</p>	<p>The Framework on integrated, people-centred health services has undergone broad consultation since 2013. As the report states, the different regions, including the Region of the Americas, have achieved significant progress and</p>

		<p>CD54/INF/1, Add. I (2015) Report on the Development of the Global Strategy on Human Resources for Health: Workforce 2030</p> <p>CD52/6 (2013) Human Resources for Health</p> <p>CD52.R13 (2013) Human Resources for Health: Increasing Access to Qualified Health Workers in Primary Health Care-based Health Systems</p> <p>CSP27/10 y CSP27.R7 (2007) Regional Goals for Human Resources for Health 2007-2015</p>	<p>most of what is proposed in the document comes from the collective learning and experience of the regions. Accordingly, this framework should not be regarded as a new initiative for the Region of the Americas. In fact, the Strategy for Universal Access to Health and Universal Health Coverage includes in its four strategic lines the initiatives proposed in this framework.</p> <p>The Bureau will study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.</p>
<p>WHA69.25 Addressing the global shortage of medicines and vaccines</p>	<p>A69/42 Addressing the global shortages of medicines, and the safety and accessibility of children's medication</p>	<p>CE158/15 Access and Rational Use of Strategic and High-cost Medicines and Other Health Technologies</p>	<p>PAHO will present a policy paper on this issue at the meetings of the Governing Bodies in 2016: Access and Rational Use of Strategic and High-cost Medicines and Other Health Technologies. The implications for the Region previously written for WHA69.20 would also apply to this resolution. However, the Bureau will study the mandates of the resolution adopted by the Assembly and will report on the implications for the Region to the 55th Directing Council, 68th Session of the WHO Regional Committee for the Americas.</p>
