

Global 3,316,254 cases 243,154 deaths 214 countries/territories/areas

HIGHLIGHTS

In the Region of the Americas, an additional 44,050 cases and 6,214 deaths were reported in the past 24 hours, bringing the regional total to 1,384,641 cases including 78,409 deaths. Decreases in case count and death toll during the weekends should be interpreted with caution due to reporting delays or no new reports being published by some countries/territories in the region.

- Majority of the new cases (26,753) and deaths (5000) continue to be reported from the United States of America, which represents 79% of all cases and deaths reported to date in the region (confirmed and probable).
- Other countries reporting significant increases in newly confirmed cases compared with the previous day are Brazil (6,207 new cases) and Honduras (95 new cases).

From other regions

WPRO

- Total 64,453 cases and 1,484 deaths reported to date from 18 countries/states/territories in WPRO excluding China
- During past 24 hours: 1,083 new cases and 33 new deaths

SEARO

- Total 58,166 cases and 2,185 deaths reported to date from 10 countries/states/territories in SEARO
- During past 24 hours: 3,094 new cases and 84 new deaths

EURO

- Total 1,461,404 cases and 138,200 deaths reported to date from 61 countries/states/territories in EURO
- During past 24 hours: 26,764 new cases and 2239 new deaths

EMRO

- Total 193,942 cases and 7,716 deaths reported to date from 22 countries/states/territories in EMRO
- During past 24 hours: 6,386 new cases and 155 new deaths

*Recovered counts as indicated by reporting Member States

†Data reported by state/district/territory public health authorities. Confirmed case and death totals may include a small proportion of probable cases and deaths due to differences in reporting.

‡Excludes counts for Guam, Commonwealth of the Northern Marianas, Puerto Rico, and the United States Virgin Islands

§Probable deaths are those reported and defined by New York City, available at: <https://on.nyc.gov/2RloJdU>

##Confirmed cases include both symptomatic and asymptomatic PCR-positive cases, as defined by the Chile Ministry of Health, available at: <https://bit.ly/2KQ99Jw>

§Probable deaths as defined by the Ecuador Ministry of Public Health, available at: <https://bit.ly/2RZtqJR>

‡‡Recovered counts include both those defined by the Ecuador Ministry of Public Health as discharged from the hospital and recovered cases

¶Total confirmed cases reported as per Peru Ministry of Health, of which 14,956 cases tested positive by RT-PCR and the remaining 22,020 cases tested positive by rapid diagnostic tests (RDTs);

however, to date, these RDTs are not recommended for use by WHO

|| Total cases reported as per the Puerto Rico Department of Health (DoH), of which 964 cases tested positive by RT-PCR and the remaining 611 cases tested positive by serological tests.

**Probable deaths as defined by the Puerto Rico DoH, available at: <https://bit.ly/2VvikeO>

preparedness, readiness and response activities.

Category number	Category name	Definition
1	No cases	Countries/territories/areas with no cases
2	Sporadic cases	Countries/territories/areas with one or more cases, imported or locally detected
3	Clusters of cases	Countries/territories/areas experiencing cases, clustered in time, geographic location and/or by common exposures
4	Community transmission	Countries/area/territories experiencing larger outbreaks of local transmission defined through an assessment of factors including, but not limited to: <ul style="list-style-type: none"> - Large numbers of cases not linkable to transmission chains - Large numbers of cases from sentinel lab surveillance - Multiple unrelated clusters in several areas of the country/territory/area
