

HIGHLIGHTS

- In the region of the Americas, there is one (1) suspected case of 2019-nCoV each in Mexico and Peru as of 10 February.
- Since 5 February 2020, no *new countries* outside China reported cases of 2019-nCoV.
- However, since 5 February, the number of cases outside China have gone up by 128 cases for a total of 319 cases outside China to date.
- Conference cluster – Singapore:** There have been 14 cases from 6 countries that either went to the conference in Singapore or were tested positive after contact with a case who attended the conference: Singapore (3), Republic of Korea (2), Malaysia (1), UK (2), France (5), Spain (1).

The cluster related to European countries *France, Spain and the UK*, cases confirmed in the past day, all appear to have links to a French ski resort where they had contact with a British man who had just returned from the conference – he was symptomatic and later confirmed as the 3rd case in UK.
