Organization

World Health  
Organization  
REGIONAL OFFICE FOR THE  
Americas

Office for Barbados and Eastern Caribbean Countries

27 April 2020

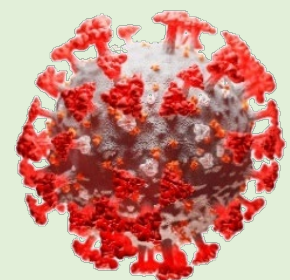

This situation update is on the Novel Coronavirus (COVID-19) reported cases and deaths, Globally, Regionally, for Barbados and Eastern Caribbean Countries, French Territories and the United Kingdom Overseas Territories.

- Based on the data available, around 300,000 patients have been reported to have recovered from the disease. The WHO has limited information on whether a person infected with the virus develop an antibody response and for how long.
- This remains an unknown, more information is needed from recovered patients to continue investigating this question and have a full picture of whether they develop an immunity to the virus.
- Studies are underway and a number of serological tests are currently available, the WHO will closely monitor the findings of these investigations.
- According to our [clinical management guidelines](#), a COVID-19 patient can be discharged from isolation after two consecutive negative test results in a clinically recovered patient at least 24 hours apart.

**BE AWARE.**

**PREPARE.**

**ACT.**

<b>Total</b>	<b>681</b>	<b>42</b>							

Table 1: COVID-19 status in Barbados and Eastern Caribbean Countries, French Territories and United Kingdom Overseas Territories. 'Sporadic cases only' indicates countries/territories/areas with one or more cases, imported or locally detected. 'Cluster of cases' indicates countries/territories/areas experiencing cases clustered in time, geographic location and/or by common exposures.

Data in red new.

Disclaimer: Data is updated by 5:00PM each day and there could be delays in reporting. Any discrepancies from national data figures will be edited on the next issue.

### **PAHO donates more laboratory testing materials for COVID-19**

The Best dos Santos Laboratory in Barbados received more supplies and accessories for COVID-19 testing, including RNA extraction kits and swabs. Dr Jean Marie Rwangabwoba, Health Surveillance, Disease Prevention and Control Advisor, handed over the materials to a representative of the laboratory.
