Organization
REGIONAL OFFICE FOR THE
Americas

Overview

This report contains the status and overview of World Health Organization (WHO) Collaborating Centres (CCs) in the Americas, organized by country.

What is a WHO Collaborating Centre?

They are typically parts of institutions such as universities, hospitals, research institutes, academies or ministries which have been designated by the WHO Director-General to carry out activities in support of the Organization's programs. Currently there are over 800 CCs in over 80 Member States working with WHO on areas such as nursing, occupational health, communicable diseases, nutrition, mental health, chronic diseases, and health.

WHO Collaborating Centres in the Americas

All WHO CCs located in the Region of the Americas are known as Pan American Health Organization/World Health Organization (PAHO/WHO CCs) since PAHO also serves as a WHO Regional Office. **Today there are close to 200 active CCs in 15 countries/territories in the Americas** (not including new proposals in the pipeline).

What they do

PAHO/WHO CCs carry out a variety of activities. These can include dissemination of information; evaluation; training and education; research; providing technical input to the Organization on various topics to inform the development of guidelines, manuals, methodologies; assisting with outbreaks and emergencies; laboratory services, etc.

How they work

PAHO/WHO technical officers identify eligible institutions that are capable and willing to be designated as a CC. Then, after at least two years of successful collaboration, these officers can initiate a proposal for designation. Spontaneous applications or self-nominations by institutions are not accepted. Complete details about WHO policies, procedures and responsibilities are available in the [Guide for WHO Collaborating Centres](#).

Eligibility and other criteria for designation

To be considered for designation as a PAHO/WHO CC, eligible institutions must fulfill all the following criteria:

1. High scientific and technical standing at national and international levels.
2. Prominent place in the country's health, scientific or educational structures.
3. High quality of scientific and technical leadership, and sufficient number of staff with high-level qualifications.
4. Stability in terms of personnel, activity, and funding.
5. Strong working relationship with other institutions in the country, and at the intercountry, regional, and global levels.
6. Clear ability, capacity, and readiness to contribute, both individually and within networks, to WHO programmed activities, whether in support of country programs or through participation in international cooperative activities.
7. Clear technical and geographical relevance of both the institution and its activities to WHO's program priorities.
8. At least two years of previous collaboration with WHO in carrying out jointly planned activities.

The designation

The designation is a time-limited agreement between PAHO/WHO and the designated part of the institution, through which the latter agrees to implement a series of concrete activities specifically developed or designed with and for PAHO/WHO. Each PAHO/WHO CC cooperates with a specified PAHO/WHO technical division, according to mutually agreed upon terms of reference. This agreement is initially for a period of four years and in some cases may be renewed for an additional period of up to four years.

Working with a Collaborating Centre

Roles and responsibilities of PAHO/WHO Staff:

- Consider other collaboration mechanisms (e.g. informal collaboration, MOU, etc.) prior to initiating a proposal.
- Verify that ALL criteria for designation are fulfilled prior to proposing an institution.
- Jointly develop with the proposed institution a short list of Terms of Reference and a detailed work plan of activities to be implemented by the PAHO/WHO CC.
- Ensure that the agreed activities are linked to the current WHO Programme Budget and PAHO Program and Budget.

- Initiate the process to redesignate a CC at least six to nine months before the end of the current designation following an in-depth analysis of the CC's past performance and the future needs of the Organization.

Roles and responsibilities of PAHO/WHO Collaborating Centres:

- Implement the agreed work plan in a timely manner and to the highest possible standards of quality, and alert the PAHO/WHO responsible officer (RO) of any issue that may affect implementation of the work plan;
- Comply with the [Terms and Conditions for WHO Collaborating Centres](#), and follow relevant WHO regulations and policies; submit annual progress reports via WHO's global electronic processing system (eCC) upon request on the anniversary of the designation date.

SK Role

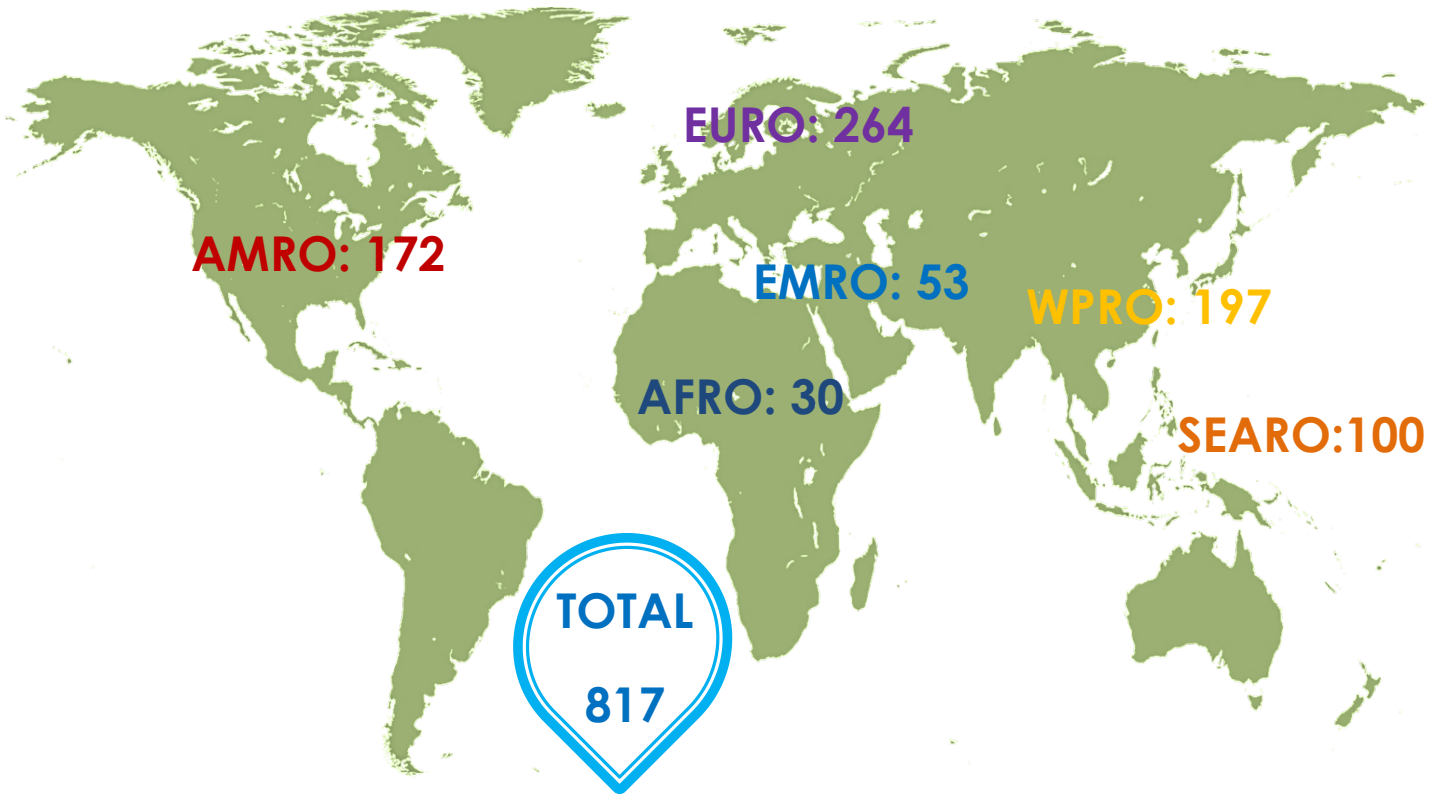

The SK team serves as the Regional Focal Point for PAHO/WHO CCs. Main responsibilities are to:

- Oversee the re/designation and expiration process.
- Ensure that WHO policies and procedures are adhered to throughout the process and in the development of Terms of Reference (TORs) and work plan.
- Provide training and information resources.
- Review and approve proposals initiated by AMRO.
- Prepare all official correspondence from the Regional Director related to PAHO/WHO CCs.

Figure 3

Collaborating Centres by Outcome

Number of Collaborating Centres by Strategic Plan Outcome (2020 - 2025)
(as of March 2023)

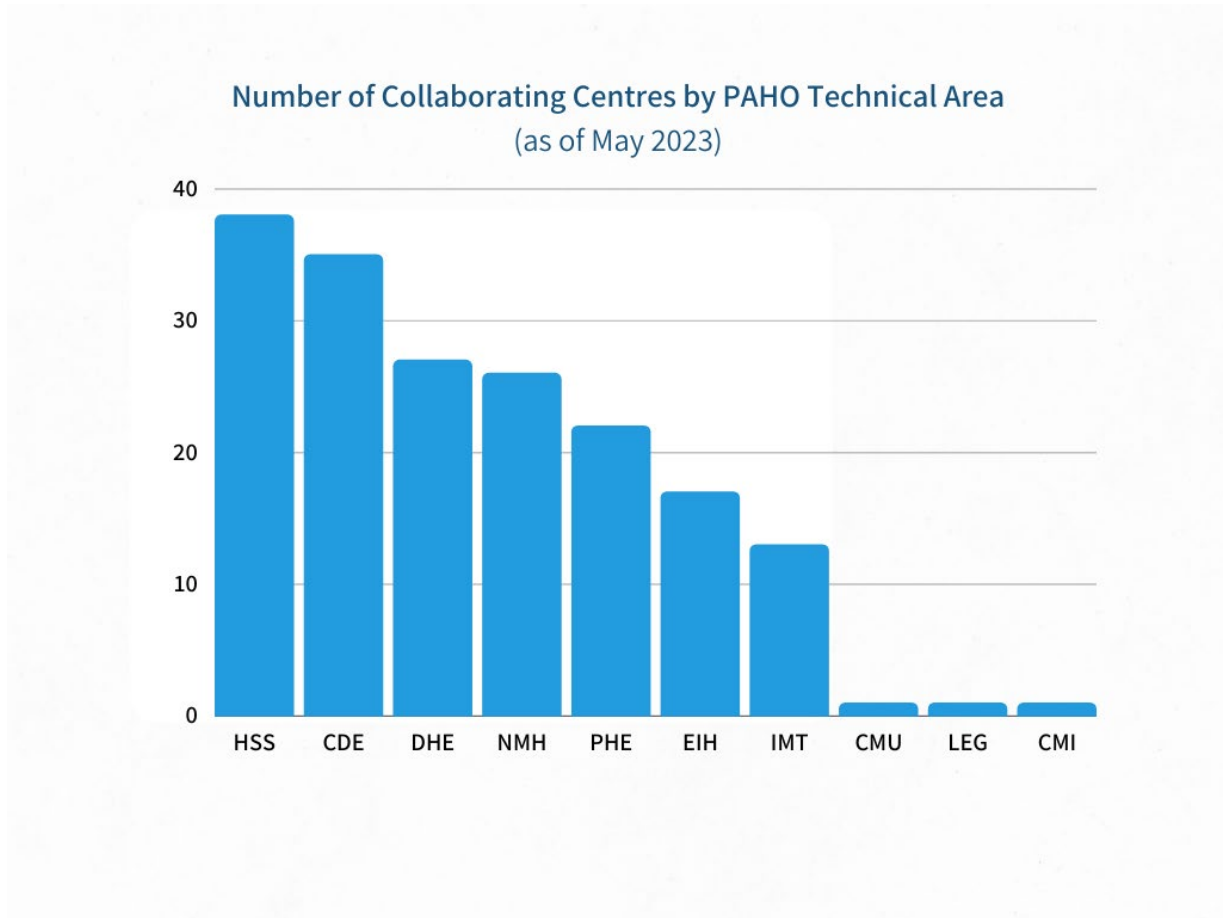

*The total number is different than the number of CCs as several CCs align with multiple outcomes.

Key:

- OUTCOME 1:** Access to comprehensive and quality health services
- OUTCOME 2:** Health throughout the life course
- OUTCOME 3:** Quality care for older people
- OUTCOME 4:** Response capacity for communicable diseases
- OUTCOME 5:** Access to services for NCDs and mental health conditions
- OUTCOME 6:** Response capacity for violence and injuries
- OUTCOME 7:** Health Workforce
- OUTCOME 8:** Access to Health Technologies
- OUTCOME 9:** Strengthened stewardship and governance
- OUTCOME 10:** Increased public financing for health
- OUTCOME 11:** Strengthened financial protection
- OUTCOME 12:** Risk factors for communicable diseases
- OUTCOME 13:** Risk factors for NCDs
- OUTCOME 14:** Malnutrition
- OUTCOME 15:** Intersectoral response to violence and injuries
- OUTCOME 16:** Intersectoral action on mental health
- OUTCOME 17:** Elimination of communicable diseases
- OUTCOME 18:** Social and environmental determinants
- OUTCOME 19:** Health promotion and intersectoral action
- OUTCOME 20:** Integrated information systems for health
- OUTCOME 21:** Data, information, knowledge, and evidence
- OUTCOME 22:** Research, ethics, and innovation for health
- OUTCOME 23:** Health emergencies preparedness and risk reduction
- OUTCOME 24:** Epidemic and pandemic prevention and control
- OUTCOME 25:** Health Emergencies Detection and Response
- OUTCOME 26:** Cross-Cutting Themes: Equity, Ethnicity, Gender, and Human Rights

OUTCOME 27: Leadership and governance
OUTCOME 28: Management and administration

Figure 4

Glossary:

- **REF#** = Country and reference number (visit the [global WHO CC database](#) and enter the reference number to see a complete summary of the CC.)
- **WHO Official Name** = Official title of the CC (indicates the area of work and focus of collaboration.)
- **PAHO Entity/Outcome** = the department in PAHO responsible for overseeing collaboration and the 2020-2025 Strategic Plan Outcome to which this CC primarily responds
 - PHE = Health Emergencies
 - CDE = Communicable Diseases, Prevention, Control and Elimination
 - DHE = Social and Environmental Determinants for Health Equity
 - HSS = Health Systems and Services
 - EIH = Evidence and Intelligence for Action in Health
 - NMH = Noncommunicable Diseases Prevention and Mental Health
 - IMT = Innovation, Access to Medicines and Health Technologies
 - CMU = Communications
 - LEG = Legal Counsel
 - CMI = Comprehensive Immunizations
- **Designation Date** = the initial date of designation
- **Expiry Date** = the final day of the current period of designation
- **Responsible Officer** = the WHO or PAHO staff member accountable for managing the collaboration
- **Technical Counterpart** = the WHO or PAHO staff member located in a different region
- **Institution** = the name of the institution in which the CC is located
- **Head of the Centre** = name of the director(s) of the CC
- **Initiated by** = indicates if the CC was proposed by WHO or PAHO
- **Current Status** =
 - Active – ongoing collaboration
 - **Expired** – during 2023
 - **Pipeline** – in process
