PROPOSED RESOLUTION

STRATEGIC PLAN OF THE PAN AMERICAN HEALTH ORGANIZATION 2020-2025

THE 57th DIRECTING COUNCIL,

(PP1) Having considered the *Strategic Plan of the Pan American Health Organization 2020-2025 (Official Document 359)* presented by the Director;

(PP2) Acknowledging the participatory process for the formulation of the Strategic Plan through the Strategic Plan Advisory Group (SPAG) and the national consultations carried out by Member States to define their programmatic priorities, in collaboration with the Pan American Sanitary Bureau (PASB);

(PP3) Noting that the Strategic Plan provides the main framework to guide and ensure continuity in the preparation of program budgets and operational plans over three biennia, and that the Strategic Plan responds to the health-related Sustainable Development Goals, the Sustainable Health Agenda for the Americas 2018-2030, which is the highest-level regional mandate in health, the 13th General Programme of Work of the World Health Organization, and other relevant regional and global mandates;

(PP4) Considering the health context in the Region of the Americas, where gaps and disparities persist between different groups in reaching health outcomes despite significant and sustained progress toward reaching universal access to health and universal health coverage;

(PP5) Welcoming the strategic vision of the Plan under the theme *Equity at the Heart of Health*, which aims to position health equity as the overarching goal and catalyze efforts in Member States to reduce health inequities within and between countries and territories in order to improve health outcomes;

(PP6) Acknowledging that the Strategic Plan represents a comprehensive and collective set of results that the Organization aims to achieve in alignment with the mandates mentioned above, and that future reporting on the implementation of the Strategic Plan and its program budgets will constitute the principal means of ensuring programmatic accountability and transparency of PASB and PAHO Member States, in line with the principles of results-based management,
