

### PAHO UPDATES

- In the Region of the Americas, an additional 75,346 cases and 3,401 deaths were reported in the past 24 hours, representing a 2% relative increase in cases and a 2% relative increase in deaths, compared to the previous day.
- Countries reporting the highest numbers of **new cases** ( $\geq 1,000$ ) compared with the previous day are: **Brazil** (32,913 additional cases, 4% increase), the **United States of America** (20,315 additional cases, 1% increase), **Chile** (5,596 additional cases, 4% increase), **Peru** (5,087 additional cases, 2% increase), **Mexico** (4,883 additional cases, 4% increase), **Colombia** (1,604 additional cases, 4% increase), and **Argentina** (1,226 additional cases, 5% increase).
- The **United States of America** accounts for 56% of all cases and 58% of all deaths, and **Brazil** accounts for 22% of all cases and 21% of all deaths, for the Region of the Americas. Combined, these two countries account for 78% of **all cases** and 79% of **all deaths** currently reported in the Region of the Americas.
- Countries reporting the highest numbers of **new deaths** ( $\geq 100$ ) are **Brazil** (1,274 additional deaths, 3% increase), the **United States of America** (832 additional deaths, 1% increase), **Mexico** (708 additional deaths, 5% increase), **Chile** (173 additional deaths, 7% increase), and **Peru** (165 additional deaths, 3% increase).
- Compared to the previous day, the following countries/territories have a relative increase in cases  $> 5\%$ : **Costa Rica** (6%), **French Guiana** (6%), and **Honduras** (6%).
- **The pooled crude case-fatality estimate** (the number of reported deaths divided by the reported cases) in the Region of the Americas is **5.4%** (median country-specific estimate: 3.1%; IQR: 0.9% - 7.3%).

### GLOBAL UPDATES FROM LAST 24 HOURS

From WHO's summary concerning COVID-19:

- 105,621 new confirmed cases from 140 countries/territories/areas. **United States of America, Brazil, India, Russian Federation, Pakistan, Chile, Saudi Arabia, Peru, Bangladesh, and Mexico** are the 10 countries reporting the highest number of new cases.
- 3,629 new deaths from 83 countries/territories/areas. **Brazil, United States of America, Mexico, The United Kingdom, India, Russian Federation, Peru, France, Pakistan, and South Africa** are the 10 countries reporting the highest number of new deaths.

### NOTEWORTHY

**Peru** - Former Minister of Health and member of the COVID-19 Command stated that the Ministry of Health publishes [COVID-19 data](#) according to the information sent by each region. This in response to concerns by the regional health director of Iquitos, in [Loreto](#), that the true total deaths are concealed. Loreto is host to many indigenous communities.

Governments updates on **social distancing and travel related measures**:

**Colombia** - The [Minister of Health and Social Protection](#) is reviewing a response plan to address the means necessary for testing, tracing, and the care of migrants in border areas, the majority displaced Venezuelans.

**Chile** - [New measures are being implemented](#) to contain and mitigate the spread of COVID-19 in Chile; more than eight million people will be in quarantine in the country. New areas will be added to the list of those already in quarantine, additional hygiene measures implemented in some regions, and citizens reminded that inspections and fines will continue.

Table notes on the next page

**NOTES:** Case and death counts may include both confirmed and probable classifications depending on the reporting Member State. Recovered counts as indicated and defined by reporting Member States. To date, rapid diagnostic tests (RDTs) are not recommended for use by WHO.

**United States of America:** Case and death counts includes both confirmed and probable classifications, as published on the U.S. Centers for Disease Control and Prevention (US CDC) website on 11 June (for data confirmed at 16:00 EST the previous day). Excludes counts for Guam, Commonwealth of the Northern Marianas, Puerto Rico, and the United States Virgin Islands. Source: <https://bit.ly/2WJN2dd>. Recovered counts as reported by state and territorial health authorities, available at the COVID Tracking Project <https://bit.ly/2ztbRC6>

**Chile:** Confirmed cases include both symptomatic and asymptomatic PCR-positive cases, as defined by Chile MoH. Recovered cases are calculated as the total number of cases minus active cases and deaths. Available at: <https://bit.ly/2KQ99Jw>.

**Ecuador:** Aggregated case total as reported by the Ecuador Ministry of Public Health (35,484 positive by RT-PCR + 8,956 by RDTs). To date, these RDTs are not recommended for use by WHO. The Ecuador Ministry of Public Health reports an additional 2,462 'probable deaths' under investigation that are not included in this table. Recovered counts are the sum of the recovered patients, hospital discharges, and epidemiological discharges as per the Ecuador Ministry of Public Health. Available at: <https://bit.ly/2RZtqjR>

**Mexico:** Recovered counts as reported by the Mexico MoH, as defined as all those positive for SARS-CoV-2 with a symptom onset date of more than 14 days, with no date of death, available at: <https://bit.ly/3blOdz0>

**Peru:** Aggregated case total as reported by the Peru MoH (49,551 by RT-PCR + 159,272 by RDTs). To date, these RDTs are not recommended for use by WHO.

**Puerto Rico:** Aggregated case total as reported by the Puerto Rico Department of Health (DoH); 1,403 were positive by RT-PCR and 3,949 were positive by serological tests. Total deaths include probable deaths. Available at: <https://bit.ly/2VvjksQ>

**DATA ADJUSTMENTS:** Differences in the total number of cases, deaths, and/or recovered cases and respective % increases reflect the following adjustment:

**Costa Rica:** Total deaths for 10 June were retrospectively adjusted to align with the Costa Rica Ministry of Public Health, reporting 11 deaths; the current number of reported deaths is 12.
