### Spotlight - Mexico - COVID-19 Daily Technical Report 02 June 2021

Current Situation: The national analysis contemplates all total suspected cases of viral respiratory disease (suspected cases without specimen, without possibility of result and suspected cases with specimen) and cases and deaths with clinical-epidemiologic association or clinical-epidemiologic ruling from epidemiologic week 1 of 2020 to week 22 of 2021. Since the start of the pandemic up to 2 June 2021, there have been 2,423,928 cases of COVID-19 of which 17,903 are active cases and 228,146 deaths have been reported in Mexico. The cumulative incidence rate of

cases was 1879.4 per 100,000 population. **Figure 1** shows the accumulated cases by entity of residence, the top 10 entities that accumulate the highest number of cases are: Mexico City, State of Mexico, Guanajuato, Nuevo Leon, Jalisco, Puebla, Sonora, Queretaro, Coahuila and Tabasco, which together make up more than two thirds (67%) of all cumulative cases registered in the country. Mexico City accounted for most of the cumulative cases in the country and alone accounted for 27% of all cases registered by place of residence.

Deaths and Mortality Rate: Figure 2 shows distribution of deaths epidemiological week of death, broken down into total positive deaths, suspected deaths with no possible result, suspected deaths with sample and deaths with no sample. As of 2 June 2021, a total of 228,146 COVID-19 deaths have been recorded while another 12,882 suspected COVID-19 deaths, including those pending laboratory confirmation (n=2,854) and the process of clinicalthose in

Figure 2: Hospitalization status,

epidemiological association (n=10,028) have also been reported. The sex distribution of confirmed deaths shows a 62% male predominance. The median age of the deaths was 64 years. The number of COVID-19 positive deaths by date of death as of 2 June, ordered from highest to lowest by state: Mexico City, the State of Mexico, Jalisco, Puebla, Guanajuato, Veracruz, Nuevo Leon, Baja California, Chihuahua and Sonora are the 10 states that have registered the highest number of deaths and together account for more than half (65.2%) of all deaths in the country. Mexico City alone accounted for 19.2% of all deaths nationwide.

Hospitalizations: Regarding hospitalizations, as of 2 June 2021, a reduction of 87% with respect to second epidemic peak can be observed in the occupation of general beds which translates to a hospital occupancy of 13% at the national level. Additionally, there is a 14% occupancy nationwide, representing an increase of 1% compared to 1 June 2021.

Vaccination: Regarding vaccination, as of 2 June 2021, a total of 40,762,665 doses of COVID-19 vaccines have arrived in the country since 23 December 2020 (Pfizer, AstraZeneca, SinoVac,

Source: COVID-19 Daily Technical Report 02 June 2021

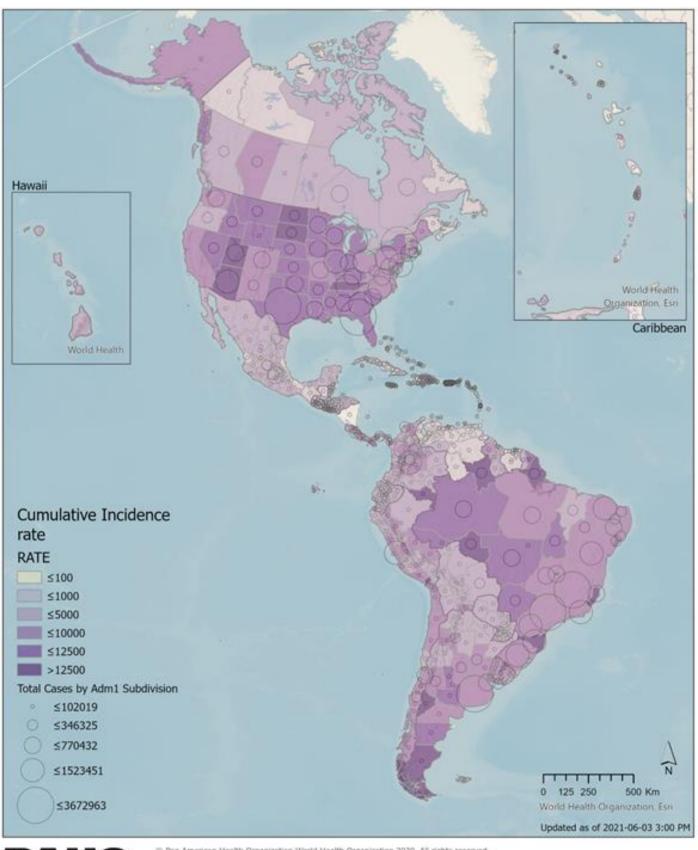

Sputnik, and Cansino). Furthermore, a total of 22,633,460 persons have been vaccinated of which 57% (12,919,455) have received both doses. Overall, 25% of the population over 18 years of age have received at least one dose.

Table notes on the next page

NOTES: Case and death counts may include both confirmed and probable classifications depending on the reporting Member State.

- Antibody tests, including rapid diagnostic tests (RDTs) based on antibody detection, are not recommended for use by PAHO/WHO in clinical diagnosis. Antigen-detecting RDTs may be used following the WHO 11 September 2020 Guidance, available at: https://bit.lv/2FxK2fs.
- Data is updated on a weekly basis for Guadeloupe, Martinique, Nicaragua, Saint Barthelemy, Saint Martin, and Saint Pierre and Miquelon.
- As of 11 November 2020, the previously aggregated Bonaire, Saba and Sint Eustatius are now being presented separately in the table.
- \*A dispute exists between the Governments of Argentina and the United Kingdom of Great Britain and Northern Ireland concerning sovereignty over the Falkland Islands (the) (Malvinas)

**Argentina**: On 14 March 2021, due to daylight savings time observed in Eastern Standard Time zone, the Argentina data is no longer published by 3:00PM EST same day and is henceforth included in the following day table. Between 22 February and 14 March 2021, the data had corresponded to the same date.

**Bahamas**: According to the 1 June 2021 Bahamas Ministry of Health (MoH) publication, there are a total of 28 additional deaths under investigation, available at: <a href="https://bit.ly/3uqVMnb">https://bit.ly/3uqVMnb</a>,

**Ecuador**: According to a 6 September Ecuador Ministry of Public Health press release, only cases confirmed by RT-PCR will be reported; previously, cases who tested positive by either RT-PCR or RDTs were reported, resulting in the exclusion of 8,956 cases. Available at: <a href="https://bit.lv/3h2EWEA">https://bit.lv/3h2EWEA</a>,,,

**El Salvador**: El Salvador: Cumulative cases and deaths as published by the El Salvador Ministry of Health at: <a href="https://covid19.gob.sv/">https://covid19.gob.sv/</a>. The MoH presents a retroactively adjusted epidemiological curve of daily cases on the same dashboard.

**Guadeloupe:** Deaths are aggregated for Guadeloupe, Saint Martin and Saint Barthelemy in Santé Publique France weekly publications; death counts for Guadeloupe are calculated subtracting deaths in Saint Martin and Saint Barthelemy. Available at: <a href="https://bit.ly/39UMysd">https://bit.ly/39UMysd</a>

Jamaica: According to the latest Jamaica Ministry of Health and Wellness press release, there are a total of 147 additional deaths under investigation, available at: <a href="https://bit.ly/3aAwlJo">https://bit.ly/3aAwlJo</a>

**Mexico**: On 1 June 2021, the Mexico Ministry of Health reported 4,272 deaths in 24 hours. Of these, 3,924 were reported in 2020 and the remaining were reported in 2021. Available at: <a href="https://bit.ly/3pfdMA8">https://bit.ly/3pfdMA8</a>

**Nicaragua:** Please note there are discrepancies with the data published by the Citizen's Observatory COVID-19 Nicaragua as of 26 May 2021. Available at: <a href="https://bit.ly/3pw7ZVR">https://bit.ly/3pw7ZVR</a>

**Peru:** Aggregated case total as reported by the Peru MoH; disaggregated data available as of 30 May 2021 is 582,902 by RT-PCR + 452,553 by antigen tests + 920,014 by other RDTs. Antibody tests, including RDTs based on antibody detection, are not recommended for use by PAHO/WHO in clinical diagnosis. Antigen-detecting RDTs may be used following the WHO 11 September 2020 Guidance, available at: <a href="https://bit.ly/3fJVKTM">https://bit.ly/3fJVKTM</a>. On 31 May 2021, the Government of Peru announced that, after revision, the death toll was 180,764 deaths as of 22 May 2021, available at: <a href="https://bit.ly/3fYGi8V">https://bit.ly/3fYGi8V</a>. The number of cumulative deaths reported prior to the revision, on 30 May, was 69,342, available at: <a href="https://bit.ly/3pkar2U">https://bit.ly/3pkar2U</a>.

**Puerto Rico**: Aggregated case total as reported by the Puerto Rico Department of Health (DoH); 122,117 were positive by RT-PCR and 16,682 were positive by antigen tests; previously, cases who tested positive by either RT-PCR or serological RDTs were reported, resulting in the exclusion of 33,965 cases. Available at: <a href="https://bit.lv/2VvjksQ">https://bit.lv/2VvjksQ</a>

United States of America: Case and death counts include both confirmed and probable classifications, as published on the U.S. Centers for Disease Control and Prevention (US CDC) website on 3-June. Excludes American Samoa, Federated States of Micronesia, Guam, Commonwealth of the Northern Marianas, Puerto Rico, Palau, Republic of Marshall Islands and the United States Virgin Islands. Case and death counts may differ from other US CDC data sources because these are provisional counts which are subject to change, including updates to data reported previously, adjustments can occur. Sources: <a href="https://bit.ly/2RSpap5">https://bit.ly/2RSpap5</a> and <a href="https://bit.ly/2RVI2n6">https://bit.ly/2RVI2n6</a>.

**Uruguay**: According to the latest Uruguay Ministry of Public Health report, the total notes 16 positive cases reported in the last 24 hours were excluded from the total. Available at: <a href="https://bit.ly/3vOpPHd">https://bit.ly/3vOpPHd</a>.

**DATA ADJUSTMENTS**: Differences in the total number of cases and/or deaths and respective % increases reflect the following adjustment(s):

**Barbados**: The Barbados Ministry of Health retrospectively released data. Cases have been retrospectively adjusted for 2 June 2021 to align with the Barbados MoH indicating 4,023 cases. Available at: <a href="https://bit.ly/2SXLJZJ">https://bit.ly/2SXLJZJ</a>
